Profile

Software developer with a strong inclination towards **Frontend**. Has a solid background in **React** technologies and have experience working with **server side**. Develops complex projects that can show best implementation of functional additionally highly skilled in programming design and user experience, creating responsive projects for all screens. Adept to **self-learning** new technologies, for me writing code is like playing a game.

Software Projects

- **Website Clinic Dental   GitHub | Link live project**
  I built a dental clinic website, users can make an appointment and leave an opinion without having to call.
  Used Tools: React.js, React Query, Design libraries, Node.js, Express, MongoDB

- **Website Learning about Animals for Children   GitHub | Link live project**
  I developed the site with the help of a mother's idea, creating a learning system for children about animals.
  Used Tools: React, TypeScript, Design libraries, i18n, Node.js, Express, MongoDB

- **App for Android or iOS Community Forum   GitHub | Link live project**
  I challenged myself by building a community forum app, containing a variety of categories and topics.
  Used Tools: React Native, Redux, Design libraries, Node.js, Express, MongoDB

- **Website Galaxy of Programmer Learn New Technologies   GitHub | Link live project**
  I invented a learning site for programmers which contains a variety of learning languages videos, files.
  Used Tools: NextJs, Design libraries, MUI, MongoDB

Education

- 2019 – 2022: **Shankar Engineering: Software Practical Engineer**
  - Courses: Algorithm (OOP, Data Structures) **| Full Stack: 97 | Mobile Android: 99 | UX / UI: 99**
  - In the first year I received an honors certificate.
  - Final Project (Grade 88): General forum website (Used Tools: React.js & Node.js, MMSQL) which contains a variety of daily categories.
- Udemy Course **JavaScript** 12 total hours, Understanding the weird parts.
- Udemy Course **TypeScript** 15 total hours, Understanding and combine with React | Node.

Skills

- **Frond-End:** JavaScript, TypeScript, React, React Native, NextJs, Redux, React Query, Html, CSS, Bootstrap, MUI and Design libraries.
- **Back-End:** Node.js, Express, Microsoft SQL Server, MongoDB.
- **Algorithm:** C#, Python.
- **Tools:** GitHub, Adobe, UX/UI, ChatGPT, Postman, Visual studio code, Visual studio, Android studio.

Military Service

2015 – 2018: Technology and maintenance corps position, and I worked with SAP.

Languages

English: Good technical English | **Russian:** Mother tongue | **Hebrew:** Native
